Crear usuario en MariaDB Comandos

Para crear un usuario en MariaDB por comandos hay que acceder a él.

```
yoda@elvigilante:~$ sudo mysql -u root -p
[sudo] password for yoda:
Enter password:
Welcome to the MariaDB monitor.  Commands end with ; or \g.
Your MariaDB connection id is 40
Server version: 10.6.12-MariaDB-0ubuntu0.22.04.1 Ubuntu 22.04

Copyright (c) 2000, 2018, Oracle, MariaDB Corporation Ab and others.

Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.

MariaDB [(none)]>
```

Una vez dentro creamos el usuario que queramos.

```
MariaDB [(none)]> CREATE USER 'wikasa'@'localhost' IDENTIFIED BY 'ABC.123';
Query OK, 0 rows affected (0,022 sec)

MariaDB [(none)]>
```

Le damos permisos totales o los que queramos en mi caso todos y recargamos la tabla de privilegios.

```
MariaDB [(none)]> GRANT ALL ON *.* TO 'wikasa'@localhost WITH GRANT OPTION;
Query OK, 0 rows affected (0,013 sec)

MariaDB [(none)]> flush privileges;
Query OK, 0 rows affected (0,001 sec)

MariaDB [(none)]>
```

Una vez hecho esto, nos salimos e intentamos iniciar sesión con la cuenta nueva para probar que funciona.

```
MariaDB [(none)]> exit;
Bye
yoda@elvigilante:~$ sudo mysql -u wikasa -p
[sudo] password for yoda:
Enter password:
Welcome to the MariaDB monitor.  Commands end with ; or \g.
Your MariaDB connection id is 41
Server version: 10.6.12-MariaDB-0ubuntu0.22.04.1 Ubuntu 22.04

Copyright (c) 2000, 2018, Oracle, MariaDB Corporation Ab and others.

Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.

MariaDB [(none)]>
```
